Summer Camps

Summer 2021 Session Dates

French/Math Enrichment Camp (grades 3-5)

\$600/student

Mon-Fri, 9 AM - 4 PM, in person

In the morning, students will learn French vocabulary and grammar through engaging songs, games, and readings. In the afternoon, students will develop critical thinking skills by answering math problems and solving puzzles.

2-week session:
Aug 2nd-Aug 13th

Programming Camp (grades 5-7)

\$600/student, per session

Mon-Fri, 9 AM - 4 PM, virtual

This Python coding camp offers instruction in foundational programming concepts such as data types, variables, methods, and functions using engaging lessons and fun projects. Participants will learn how to write and debug their own programs in the Python programming language to develop their logical problem solving skills, confidence, and creativity.

2-week sessions:
June 21st-July 2nd
July 12th-July 23rd
July 26th-Aug 6th
Aug 9th-Aug 20th

Creative Expression: Art and Writing Camp (grades 5-7)

\$300/student, per session

Mon-Fri, 9 AM - 12 PM, virtual

Students will tune into their creative sides as we examine and create works of art and writing. We will examine poetry, sculpture, short stories, and paintings to guide students in finding their unique styles.

2-week sessions:
June 21st-July 2nd
July 12th-July 23rd
July 26th-Aug 6th
Aug 9th-Aug 20th

Algebra 1 Camp (grades 6-9)

\$2100/student

Mon-Fri, 8:30 AM - 12:30 PM, in person

(Optional homework help: **Mon-Fri, 4:30 PM - 6:30 PM, virtual**)

Topics include working with real numbers, polynomials and factoring, fractions and their applications, introduction to functions, systems of linear equations, inequalities, rational and irrational numbers, and introductory statistics and probability.

7-week session:
June 21st- Aug 6th
(No class July 5th)
